A: If the link has been removed/frozen or is broken, here's what you can try: Go into Subreddit -> Free Stuff -> "Freebie" -> Filter on "Threads" This will show you the thread with your link Flag the thread with a custom message. This will show you the mod message when the mod reads your comment (if there is one) The mod message will give you the information if it is a dead link. For example, this is a mod message from a mod: I can't find the file: MOTOGP-17-KEY-SERIAL-NUMBER-DEATH AND DESTRUCTION-OF-ALL-KIND.PEX I removed all the files What I can try and what you can try is this: Flag the thread with a custom message. This will show you the mod message when the mod reads your comment. The mod will see your flag and it will be reviewed. Q: Laravel 5.5 validation first and then add the file upload I am trying to validate the first field and add a file upload in laravel 5.5 form. $rules = array('agentname' =>'required|max:255', 'agentnumber' =>'required|numeric', 'agentdob' =>'required|numeric'); $validation = Validator::make(Input::all(), $rules); if($validation->passes()){ $file = Input::file('agentfile'); $fileName = rand().'jpg'; $path = 'uploads'; $size = $file->getClientSize(); $file->move($path, $fileName); $agentfile = Input::file('agentfile'); $agentfiledata = $agentfile->getClientOriginalName(); $ext = $agentfile->getClientOriginalExtension(); $newfilename = $fileName.'_'.$agentfiledata.'.'.$ext; $folder = Input::file('agentfile')->move($path, $newfilename); } I tried using form request
